

This certificate is in recognition that 50.5 tonnes of greenhouse gas emissions have been offset by:

Global Carbon Project - International Project Office in Canberra

1/1/09 - 31/12/09

Climate Friendly has retired the equivalent in Gold Standard renewable energy carbon credits from the Huadian Ningxia Wind Project in China to offset towards emissions associated to the operations and flights of the Global Carbon Project.

Thank you for taking meaningful action on climate change and supporting clean energy.

50.5
