

Certificate of Climate Action

Carbon emissions offset

73.9

tonnes CO₂e

This certificate is in recognition that

CSIRO Global Carbon Project

has offset 73.9 tonnes of greenhouse gas emissions for the period
01/01/2013 to 31/12/2013.

Climate Friendly commits to retiring the equivalent in VCS carbon credits from the Gunung Salak
Geothermal Project in Indonesia to offset a proportion of general emissions associated with the project.

Thank you for taking meaningful action on climate change.
